Single-point access for Electronic Certificate of Origin for Chambers of Commerce

Kale Logistics Solutions offers digital platform for issuance of electronic Certificate of Origin. It is conceptualised to address various challenges in the current process.

|			
Global lockdowns and curfews have implications on the logistics industry and global supply chains.	Restricted movement of exporters due to lockdown restrictions	Manual and physical processes with no audit trails and higher wait time	Risk of spreading the disease with paper contact and touchpoints

Solution Process

Electronic facilitation of Certificate of Origin (e-CoO) is the way forward to enable operational continuity for exporters and Chamber of Commerce. This ensures faster processing of the document through a cloud based solution.

Right from capturing user details to payment through online wallets and sharing status updates on each milestone, e-CoO does it all. Added to that, it facilitates easy and secured payment to void physical touchpoints and promotes paperless & transparent trade.
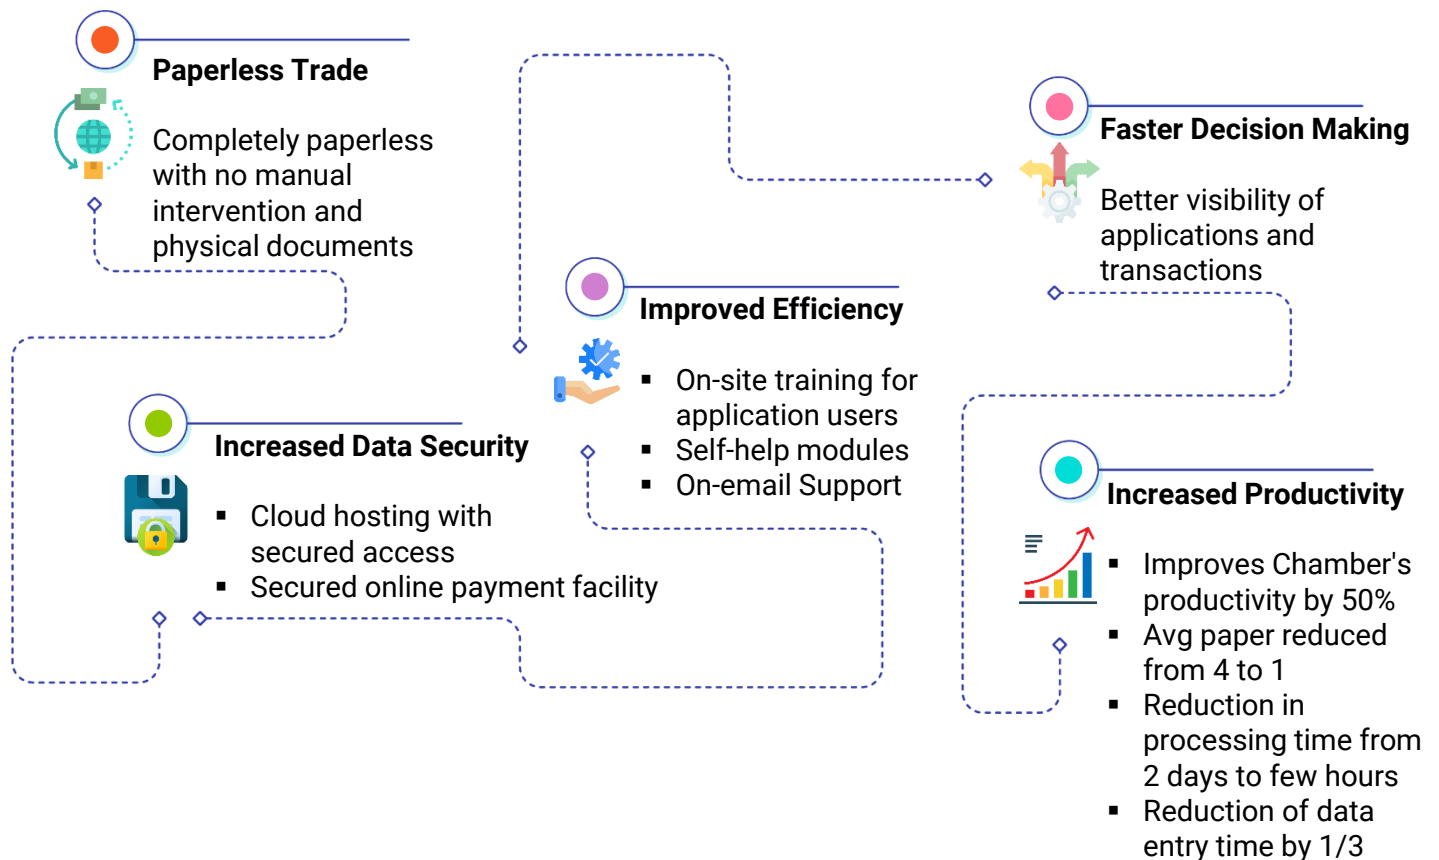

Freight Forwarder/ Custom Brokers
- Request
- Submit e-documents
- Online Payment
- Modify/re-submit

Chambers of Commerce
- Review and approve user
- Review application
- Accept/Reject
- Issuance
